

Technical Skills

Strong: HTML5, CSS3, Bootstrap, Git, GitHub, JavaScript, jQuery, Agile, Scrum

Experienced: Google Material Design, Object Oriented Programming(JS), Photoshop, Illustrator

Applications Created

mBoutique

- Created a pixel perfect, responsive website from a designed wireframe using HTML and CSS.

Memory Match

- Used HTML and CSS to design an 18 card memory game with appealing style and theme.
- JavaScript and jQuery functions and conditionals to check for matches, flipped cards, incorrect guesses and win conditions.

To Do List

- To Do List application with dynamic creation and deletion using Javascript and jQuery.

Student Grade Table

- Used Javascript/jQuery to instill CRUD (create, read, update, delete) functionality with a remote database through AJAX calls.
- Achieved mobile-first, fully responsive design with Bootstrap styling over an HTML5 website skeleton.

Entertainment 720

- API integrated app that allows the user to search by artist to receive information based on relevant info from Youtube, Google Maps/Places, Twitter and Tour Date APIs, Google Material Design and JavaScript.
